I just heard back from VA DCR, and they do not have  
retrofit requirements in their MS4 permits.

(See attached file: CB state components.xlsx)

Jim:  
I'm cc'ing Liz Ottinger. She's been most closely working with/following the DE, PA and MD sw programs, while I'm following the VA, DC and WV programs.

Retrofits:

DC: The DC permit requires solid retrofitting, but doesn't have ambitious goals for this permit term. The District's draft regs and policies still fall short of ensuring it will be done well.

MD: Is required in MS4 permits, but the requirements are poor, and in fact, counter-productive because they are forcing expenditure of lot of resources on actions that aren't providing good wq benefits.

Everyone else: Nothing.
